

LED EUB-2150H

Linear Class: U-Shaped T8 (A+B)

Product Description

A smart energy-saving alternative to traditional fluorescent lighting, the Euri Lighting EUB-2150H outputs high lumens for low watts. With hybrid technology, this U-Shaped LED tube makes for uncomplicated installation with or without a ballast. Shatterproof glass and built to last 50,000 hours, Euri Lighting's EUB-2150H reduces energy and maintenance worries with every use. See Euri Lighting EUB-2140H for Bright White (4000K).

Estimated Energy Cost: \$1.68 - 1.8 per year

*Note: Design, features and specifications subject to change without notice. Some features may not be available on all models. For more information please visit: www.eurilighting.com or call 1-888-743-5766

LED Hybrid Tube

Hybrid technology reduces maintenance expenses and allows adaptable installation methods whether a ballast is present or not
